Grade behaviour

Combine votes over all grades ▼

- Select the applicable grade behaviour

- Choose the correct validation notes:

Validation & Grade level notes								
Grade	Number of voters	Sum of votes in match		Votes given to an individual player		Number of players that must be given votes	Notes	Clear
Default	Max. <input style="width: 40px;" type="text" value="1"/>	Min. <input style="width: 40px;" type="text" value="6"/>	Max. <input style="width: 40px;" type="text" value="6"/>	Min. <input style="width: 40px;" type="text" value="1"/>	Max. <input style="width: 40px;" type="text" value="3"/>	Min. <input style="width: 40px;" type="text" value="3"/>		

Number of voters - The number of separate 'Vote Entries' for a given match. For example, if this is set to 1, only one voter can enter votes in a match for this award (for one or more players - see below). Any user accessing the *Enter Votes* screen for the same award and match will not be able to enter an extra set of votes, but depending on their access, they may be able to edit the existing votes.

Sum of votes in match - For a single 'Vote Entry', determines the maximum and minimum range for the tally of votes across all players.

Votes given to an individual player - For a single 'Vote Entry', determines the maximum and minimum range for the votes given to any one player. Players not receiving votes are left blank.

Number of players that must be given votes - For a single 'Vote Entry', determines the maximum and minimum number of players that receive votes.

- Add in optional notes
- Click **'Update'** to confirm
